February 7, 2007

Robert Triozzi Director, Cleveland Department of Law 601 Lakeside, Room 106 Cleveland, Ohio

RE: STATUS: Historic Coast Guard Station Minimal Repair - Request for a Writ of Mandamus

Dear Director Triozzi:

On December 14, 2006, I respectfully handed you a written request for a Writ of Mandamus regarding the minimal repair of the historic Cleveland Harbor Coast Guard Station. You assured me that you would respond to my formal request after you reviewed it. It has been eight weeks (two months) since I submitted the request and two weeks (January 25, 2007) since I went to your office asking your associate to have you respond on the status of my request.

As of today, I have not received a written reply or a phone call from the Cleveland Department of Law regarding the status of my formal request.

Therefore, I respectfully request that the Cleveland Department of Law reply in writing in five (5) business days, to inform me of the status of my formal request for a Writ of Mandamus. In the near future, I will prepare to pursue a Taxpayer's Lawsuit and submit an extensive public records request regarding the historic Cleveland Harbor Coast Guard Station.

It has been over four years since my initial request for minimal repair and over three years since the city of Cleveland has acquired the historic Cleveland Harbor Coast Guard Station. The buildings and site are Cleveland's most prominent maritime Cleveland Landmark, which is located where our American Heritage River meets our Great Lake. As I write this status request, our historic Cleveland Harbor Coast Guard Station is enduring the harsh elements of another brutal winter on the Cleveland lakefront. It is important that the status of my formal request be addressed immediately, so we can proceed to take action to save this majestic Cleveland Landmark.

Respectfully submitted,

Edward J. Hauser 11125 Lake Avenue #402 Cleveland, Ohio 44102
